FORMER BORDER PATROL CHIEFS JOIN IN NO CONFIDENCE OF UPPER MANAGEMENT

Brunswick GA – 28/8/2010 – Recently, the Union representing Border Patrol Agents joined the one representing ICE Agents in stating they have no confidence in the current DHS & ICE upper management. Now the Association of Former Border Patrol Officers has stated their support of the two union's positions.

The Nat'l Association of Former Border patrol Officers, or NAFBPO (www.nafbpo.org) strongly believes that with illegal aliens entrenched in every single state of our nation, interior enforcement of our Immigration laws is woefully lacking. This has been caused by a lack of resources, and continues to worsen under faulty operational policies and a non-willingness by upper management to enforce existing Immigration laws.

NAFBPO is adamant there are two primary tasks that must be accomplished to improve our system for legal Immigration while eliminating the blight of illegal Immigration. These are a secured border and strong interior enforcement. NAFBPO'S collective experience in dealing with border and Immigration matters, as well as an institutional knowledge dating back over a half century leads us to emphatically state that without these two tasks being implemented successfully, Immigration control will never be possible. Buck Brandemuehl, retired Chief of the Border Patrol and a founder of NAFBPO says "The U.S. has reached a critical crossroads in dealing with the illegal alien problem. This problem must be addressed now, as it is strangling our democracy and threatening our national security."

There are a number of steps required in addressing the two essential tasks. In the near future, NAFBPO will be posting a comprehensive Immigration enforcement and reform proposal setting forth those steps, which if implemented collectively, will provide a common sense Solution to illegal Immigration, and a return to the rule of law.

NAFBPO is the National Association of Former Border Patrol Officers, an organization advocating for increased homeland security through a controlled border, and effective Immigration enforcement. In 2006, a group of retired Border patrol Chiefs and Agents formed NAFBPO in order to use our collective knowledge and experience to educate America to the realities of border and Immigration issues, while actively working for no amnesty and for effective Immigration reform. One of our most effective tools is the M3 Report, a collection of translated Spanish-language news media from south of the border. This free report is often quoted by Legislators and news media.
